25X1A

MEMORANDUM FOR: C/DD/OSA/DDR

SUBJECT : Modified [REDACTED] Recorder

25X1A

1. Interest has been expressed by DD in obtaining a model of the [REDACTED] Pocket Recorder and Reproducer System to be modified for a new environment.

25X1A

It is anticipated that the engineering model of the system could be furnished [REDACTED] at this time as GFE to try out the modification if this meets the approval of DD.

25X1A

In order for TSD/APB to establish a task at [REDACTED] to handle the proposed modification it will be necessary to furnish TSD with a memo stating the desired technical requirements to be levied on the device and modifications to be performed. Action to transfer cost authority should be started.

In the interim it is hoped that one of the prototype models can be made available for preliminary testing.
